(a) Fit vs observation (raw scale)
observed (local)
model: reported
model: true incidence
R^2_{raw} = 0.950
reported total 767.2 / observed 767
first detected cases
Weekly cases
Analysis week (1-47)
(b) Same data on log1p scale
R^2_{log} = 0.976
shape (log) and level (raw) are reproduced simultaneously
log1p(weekly cases)
Analysis week (1-47)
